Business Internet Access for Enterprises and High Bandwidth Applications

Covad Wireless offers the most flexible, scalable and cost effective enterprise level Internet access solutions. When your business demands high capacity, mission-critical bandwidth, Covad Wireless's HiCap solutions deliver unlike any conventional DS3 or fiber service. Covad Wireless's HiCap can be installed quickly and provides outstanding value.

SERVICE OVERVIEW Covad Wireless's HiCap solutions are the ideal choice for high bandwidth, mission critical Internet access applications. Covad Wireless's HiCap service is delivered using carrier-class licensed microwave technology that links a customer's location directly to Covad Wireless's network and the Internet. This eliminates the need for telco infrastructure while providing a high bandwidth, low latency, reliable service.

Covad Wireless's HiCap solutions are available in speeds ranging from 10 Mbps up to 100 Mbps. All HiCap solutions deliver a convenient Fast-Ethernet interface to the customer, eliminating the need for expensive DS3 cards and routers.

PATH DIVERSITY For Enterprises with existing DS3 or fiber access, Covad Wireless's HiCap solution enhances your business continuity and disaster preparedness objectives by providing a path and network diverse route to the Internet.

WHY COVAD WIRELESS? Covad Wireless is the nation's largest fixed wireless ISP for business and is wholly owned by Covad Communications Group Inc. (AMEX: DVW), a leading nationwide provider of integrated voice and data solutions. Thousands of businesses have selected Covad Wireless because of the benefits of our service and the unparalleled support we provide.
