Temporary Internet Service for Conferences, Events, and Projects

When your company or group needs temporary Internet service, get connected with Covad Wireless Event Service. Whether you're planning a corporate event, conducting a press conference, or about to start a construction project, Covad Wireless can provide the high-speed Internet access you need—for hours, weeks, or months. Covad Wireless Event Service can typically be installed very quickly—even in the most unusual locations.

HIGH-SPEED INTERNET FOR SPECIAL EVENTS AND PROJECTS. Covad Wireless Event Service is extremely flexible and provides fast, reliable Internet connectivity for meetings, conferences, and short-term projects such as:

- Company events
- Customer events
- Film festivals or concerts
- On-location film shoots
- Sporting events
- Construction projects
- Press conferences
- Product launches
- Product demonstrations
- Trade shows
- User groups
- Temporary Wi-Fi hot spots

ALL THE BANDWIDTH YOU NEED. Whether you are doing live video webcasting or providing Internet access to hundreds of users, Covad Wireless has the bandwidth you need. Our standard event service delivers performance options from 2 Mbps to 6 Mbps. For larger events or other high-bandwidth needs, we can provide speeds from 10 Mbps to 40 Mbps—comparable to a full DS3 line.

WHERE YOU NEED IT. In addition to providing Internet access in hotels, convention centers, and conference centers, Covad Wireless can also serve less conventional locations, including parking lots, tents, film sets, and amphitheatres. We have even provided Internet access on the beach for a surfing competition.

CONNECT FASTER. Our professional technicians can typically install your Internet connection within three to seven business days. Covad Wireless provides you with a single Fast Ethernet port that's ready to connect to your network. After we install the service, you can connect it to your gateway router, firewall, LAN switch, or Wi-Fi access point. When your event or project is complete, our technicians will return to de-install and remove the equipment.

SIMPLE BILLING. Covad Wireless Event Service is billed as a one-time fee that covers all Internet access costs for up to one month. This includes initial planning, installation, and teardown. Additional time may be purchased in daily or monthly increments.

24X365 SUPPORT. Covad Wireless is passionate about providing exceptional service and personalized support. In addition to 24x365 network monitoring, we have dedicated technical support staff to ensure that we meet or exceed our customers' expectations.
